Ahiaba Daniel

Job Title

Federal Capital Territory, Nigeria

Work Experience

Full Stack Developer

MarketRunz

February 2019 - 2020

Abuja, FCT, Nigeria

Built an e-Commerce website for marketrunz and managed as well as trained other member of staff how to use and manage the site. Fixed all bugs and always modified and added new features.

Full Stack Developer

Advanced Engineering Research Group (AEIRG)

September 2020 - Present

Minna, Niger State, Nigeria

Responsible for implementing all UI/UX designs. Bringing them to live as actual website. Working on both the Front-end and Back-End and see it work out through the process of development and testing. My presence with them has helped to reduce the working time and speed up project launching of all new ideas.
